Programme

## NOTES

## Grundtvig. Practical learning for adults

Launched in 2000, Grundtvig aims to provide adults with more ways to improve their knowledge and skills, facilitate their personal development and boost their employment prospects. It also helps to tackle problems associated with Europe's ageing population.

It covers not only teachers, trainers, staff and organisations working in the sector, but also learners in adult education. These include relevant associations, counselling organisations, information services, policy-making bodies and others such as NGOs, enterprises, voluntary groups and research centres.

The programme funds a range of activities, including particularly those supporting adult learning staff to travel abroad for learning experiences, through exchanges and various other professional experiences. Other larger scale initiatives involve, for instance, networking and partnerships between organisations in different countries.

The specific aims of the Grundtvig programme are to:

- increase the number of people in adult education to 25 000 by 2013, and improve the quality of their experience, whether at home or abroad
- improve conditions for mobility so that at least 7000 people per year by 2013 can benefit from adult education abroad
- improve the quality and amount of co-operation between adult education organisations
- develop innovative adult education and management practices, and encourage widespread implementation
- ensure that people on the margins of society have access to adult education, especially older people and those who left education without basic qualifications
- support innovative ICT-based educational content, services and practices

**A project to use the medium of story-telling to explore/record and exchange/  
compare important local stories across Europe.**

By doing this we hope to explore and discover stories that are common to us all. We hope to share issues, problems, difficulties, perspectives, wisdom, humour and triumphs in a way that helps to build lasting understanding between all of the individual contributors and partnership members.

Each partner will identify a local need or story and a group of story-recorders that will engage in the detailed work. Activities will include development of StorySavers on Social-Network sites and setting up of physical StorySavers groups in each partner's region.

As part of our regular learning partnership meetings we will organise training in story-gathering techniques and regional StorySavers exhibitions which will bring in the public and many other organisations into the region, especially those working with older people and families.

At the completion of the project we will record and disseminate the stories and memories of our friends and contributors in our various areas and industries before they disappear for ever. We then hope to share those stories in a lasting way using a wide variety of methods and media.

The educational approach will be non-formal and inclusive, using the existing skills and talents of the participants as well as developing new skills. We will encourage the whole community to engage in the project and hope to use their collective knowledge as an important project resource.

The project provides, in each partner's context, flexibility to develop appropriate action and allow participants with a range of identified needs, to develop managerial capacity both of the project and of their own personal needs and requirements.

There are several MJC in Lyon, almost in each district of the city. They sometimes work together and form a network. Each of them has its specificities, linked with the local population of the district. Many MJC in France are also affiliated to the National Federation of MJC, and share the same values : the values of popular education.

MJC Duchère is in the district of la Duchère. This is an area that has undergone major upheavals. The population is multicultural and cosmopolitan : about 40 several languages are spoken in this district ! Many low-income families live there, and face with unemployment and economical issues.

MJC's mission is to develop the local community, to develop democracy and propose activities accessible to all.

**Lyon**, France's second biggest city and capital of the Rhône-Alpes region, is situated at the crossroads of Europe's major lines of transport, at the heart of France between Paris and the French Riviera. This city is constantly on the move and today has the most beautiful and attractive urban destinations in Europe. Combining an exceptional historic heritage with a natural liking for good food, Lyon is the ideal city for discovering all the charm of the French way of life.

Lyon has been the ultimate gastronomic city for centuries, reputed around the world thanks to Chef Paul Bocuse. It now boasts more than 2 000 restaurants, including the famous bouchons (typical local eateries) to Michelin star-awarded establishments. From traditional Mères Lyonnaises (19th century cooks for the bourgeoisie) to inspired and innovative young chefs, Lyon is a place for culinary experimentation with new tastes and concepts to be savoured.

A stage for more than 2000 years of history, the city has a remarkable architectural heritage. Expanding towards the east throughout the centuries, without destroying the existing areas, 500 hectares of its city centre became a Unesco

World Heritage Site in 1998. Wandering around Lyon is like embarking on a fascinating journey through time. In each district Lyon displays an astonishing variety of architecture, from the ancient Fourvière cathedral to the traboules (passageways from the Renaissance in Old Lyon), via the elegant peninsula situated between the Rhône and the Saône, to the contemporary and original creations by Renzo Piano, Jean Nouvel and Santiago Calatrava.

As for culture, the National Opera, one of the twenty most prestigious ballets in the world, and the Célestins Theatre offer an ambitious programme all year round. Furthermore, the city has museums that exist nowhere else in the world,

such as the Lumière Institute - in Lyon – on the invention of cinematography and the Fabric Museum tracing two thousand years of the history of textile and silk weaving.

Within this wonderful Renaissance building, the Lyon History Museum and the Puppets of the World Museum have formed the Gadagne Museums in the Old Lyon since 2009. As for the Fine Arts Museum, one of the biggest museums in France and Europe, its collections spread out over 70 rooms giving visitors an exceptional journey from Antiquity to Modern Art.

as well as weaving and silk printing workshops today bear witness to this quite unique know-how.

All year round at nightfall the city is lit up thanks to its "Lighting Plan" that shows off some 325

monuments. For night owls, the city is teeming with festive, friendly places, with trendy bars from the Old Lyon to barge-restaurants situated on the banks

of the Rhône, not forgetting wine bars on the peninsula.

Lyon is vibrant all year round thanks to a number of events it hosts. Among the most appealing are the Festival of Lights, the contemporary art biennial

event, the dance biennial event, the Nuits Sonores

It's good to stroll around Lyon... to admire its heritage of course, but also to discover its many boutiques. In addition to French and international luxury brands, the Presqu'île (peninsula) is full of trendy boutiques that have seen the rise of a number of fashion designers who have gone on to become famous. As for the hilly district of the Croix-Rousse it groups together a number of young designers, passionate heirs of a glorious past at a time when Lyon was on the Silk Road. Museums

(music and sound festival), the Nuits de Fourvière (cultural festival), Quais du Polar (Thriller festival) and the Grand Lyon Film Festival, all attracting millions of visitors every year. Bolstered by its past but resolutely focused on the future, the city abounds with a number of ambitious projects, among which the Confluence district, one of the biggest town planning development projects in Europe, where a stunning museum will open in December 2014.
